

3 DAY IMPLANT BOOTCAMP-VIRGINIA

WELCOME PACKET

Our mission is to inspire, motivate, and train like-minded dental professionals to confidently, safely, and predictably restore their patients with dental implant solutions.

We are dedicated to promoting exceptional patient-centered care.

MISSION STATEMENT

like-minded dental professionals to confidently, safely, and predictably restore their patients with dental implant solutions. We are dedicated to promoting exceptional patient-centered care.

This is where the tire meets the road. You will have the opportunity to place one implant on a patient provided by WhiteCap Institute.

To take advantage of this opportunity, each attending doctor **MUST**:

[1] Have a Virginia Dental License; and

[2] provide proof of malpractice insurance. For doctors practicing outside of the state of Virginia, the steps needed to accomplish this process are outlined below.

****PLEASE NOTE: Please be aware that you are required to provide proof of Virginia license in good standing and malpractice insurance to participate in live surgery during the course.**

**** For instructions and application to apply for a Virginia Dental License,

DR. GLENN EVANS

Dr. Glenn Evans graduated from the University of Utah with a bachelor's degree in Spanish. In 2015 he earned his DMD degree at Roseman University and, while at Roseman University, was elected to be the Senior class president.

Dr. Evans was awarded the Life Long Colleague award, which is the highest honor at that university. In 2019 he was recognized at the WhiteCap Institute Summit with the advanced credential of Diplomate through their implant academy. Dr. Evans is also trained and certified in IV sedation and oral conscious sedation.

After graduation, he moved to Virginia. Currently, he runs a 4 doctor practice and really enjoys teaching and mentoring other Doctors. He is a believer in his dental school's lifelong colleague philosophy and in the WhiteCap Institute's mission of training like-minded dentists to safely & predictably place implants and use the most modern technology to achieve the best outcomes.

His wife Amber and three boys are the most important things in his life. He enjoys boating, fishing, and traveling.

DR. BRITTNEY CISZEK

Dr. Ciszek believes that the field of dentistry requires an eye for artistry and a passion for science and discovery. She lives out this philosophy at the WhiteCap Implant Institute, where she practices evidence-based dentistry and utilizes the latest technology and materials to create and maintain happy, healthy smiles for her patients.

Dr. Ciszek completed her Bachelor of Science degree in Neurobiology, Physiology, and Behavior at the University of California, Davis. Interested in the structure and function of the tissues of the oral cavity and craniofacial complex, she then received her Ph.D. in Oral Biology with an emphasis on Pain Neurobiology at the University of North Carolina. She studied the mechanisms underlying pain conditions, such as temporomandibular joint disorder (TMD). She next received her Degree in Dental Surgery from the University of North Carolina.

Following dental school, she moved to Salt Lake City, Utah, to complete a General Practice Residency at the University of Utah. During her time in residency, she was trained in oral conscious sedation, IV sedation, and advanced general dentistry procedures. She found a passion for dental surgeries and implantology and was introduced to the WhiteCap family.

As a proud Canadian originally from Ontario, Dr. Ciszek enjoys all things outdoors and spends her free time running, hiking, camping, skiing, and exploring beautiful Utah!
